

# Diarrhoea Treatment Kit

Every year almost 2 million children die as a result of diarrhoea and dehydration. Missionpharma's Diarrhoea Treatment Kit, ZincOra, is designed according to WHO/UNICEF recommendations.

The kit contains flavoured ORS and dispersible Zinc Sulphate tablets combined in one easy-to-use box. The ORS replaces liquids lost during diarrhoea and Zinc enhances faster recovery and reduces the risk of a new incidence of diarrhoea for up to 3 months following the treatment.

## BENEFITS

- Easy-to-use, pre-packed kit, which is specifically designed for children.
- Self-treatment kit containing detailed multilingual instructions of use with pictograms to ensure correct administration.
- The ORS is delivered with flavour, which provides a more attractive taste for children, increases consumption and
- Zinc is included in the kit, which provides faster recovery and reduces the risk of a new incidence of diarrhoea.

Missionpharma contributes to progress in Africa by strengthening tomorrow's healthcare with intelligent solutions and trustful partnerships.
